

MANUAL CALL POINT TYPE : FD3050

FD3050 Manual Call Point – It is designed to release a signal for a Fire condition to the Fire Control Panel upon manual activation by breaking the glass on the place, signed with arrows. The light indication for activating the manual call point is provided by a red LED. There is a possibility for testing by a special key.

It satisfies the requirements of the European Standard EN54-11 for a type A manual call point.

TECHNICAL DATA

System	: Conventional
Degree of protection	: IP 40
Operating temperature range	: -10°C to +60°C
Relative humidity resistance	: (93±3)% at 40°C
Dimensions	: 90mmX90mmX56mm
Material	: ABS
Colour	: red
Certification	: EN54-11:2001/A1:2005
Manufacturer	: UNIPOS Ltd
Origin	: European Union
